See what Inspiron 2320 users say—super simple to use and very fast

"... The camera is very clean (perfect for Skyping my son in the Air Force overseas). We had him "in our dining room" with us for opening Christmas gifts which was awesome. All features are easy to use and the speed is super fast. The touch screen works very well and blows my kid's friends away at how slim and cool it looks. I love this computer."
