

Contractor COVID-19 Checklist: Steps to Stay Safe

Your safety is top priority during this COVID-19 pandemic. We urge you to take the following precautions ahead of your home service calls.

Here are steps to take while making home service calls:

- ✓ Only do the calls that need to be done
- ✓ See if delivery of bottled water will satisfy the current water need
- ✓ Be aggressive and very careful in protecting yourself
- ✓ Sanitize hands on the way in and on the way out (like in a hospital)
- ✓ Don't touch your face
- ✓ Wear a face mask at a minimum when in the home doing any work
- ✓ Limit interaction with the home owner as much as possible.
- ✓ Don't touch anything that you don't need to
- ✓ Wear nitrile latex gloves and dispose after the call
- ✓ Maintain separation distance from others
- ✓ Carry disinfectant wipes in your truck and wipe down every time you re-enter the vehicle.

We encourage you to use the recommendations of the CDC and state/local government directives.
