

NGWA Volunteer Opportunities

The National Ground Water Association depends on volunteers to help move the professions forward. The Association has created a set of groups that are purposeful, offer advice to the NGWA Board of Directors, selective in appointing its members, and operate in conjunction with the overall goals of the Association.

Volunteers are integral to NGWA's vitality. NGWA provides opportunities for members to share information and real-world experiences to advance the groundwater professions including, but not limited to:

- Committees, subcommittees, and task forces
- Writing articles for our publications
- Creating questions for NGWA voluntary certification exams
- Reviewing papers for conferences
- Presenting at conferences, webinars, short courses and brown bag sessions
- Participating in the consensus process for standard development and best suggested practices
- Being a part of groundwater's voice to the U.S. national government.

Volunteers must be NGWA members who are willing to:

- Participate in scheduled meetings
- Meet deadlines
- Attend and promote events related to goals
- Serve as an NGWA representative in the groundwater industry.

Unsure you can be a successful volunteer?

You will definitely impact the groundwater professions if you possess the following:

- Knowledge that can influence the opportunities and goals of NGWA
- Dedication to improving the groundwater professions and NGWA
- Desire to enhance your leadership skills
- Willingness to listen to others' ideas and views
- Positive "ready to work" attitude.

What will you get from the experience?

Participating as an NGWA volunteer will give you the:

- Opportunity to pass on your expertise and knowledge
- Chance to learn from other leading professionals
- Ability to make new contacts in your field
- Chance to work on leadership skills
- Ability to impact your industry.

The NGWA president-elect reviews and approves each opportunity, matching the needs of the committee with the most experienced members. Resumes or written summaries of qualifications are encouraged to be submitted with your committee application. Individuals are not automatically appointed to a position. The committee year runs from convention to convention. A term is three years and you may serve two consecutive terms. Chairs serve for one year, but may be appointed to a second one-year term.

You can directly affect the responsible development, management, and use of the invaluable natural resource of groundwater through the following opportunities:

Association committees

- Awards Committee
- Government Affairs Committee
 - Groundwater Recharge Work Group
 - Managed Aquifer Recharge (MAR) Work Group
 - North Central Regional Policy Subcommittee
 - Northeast Regional Policy Subcommittee
 - Northwest Regional Policy Subcommittee
 - PFAS Work Group
 - South Central Regional Policy Subcommittee
 - Southeast Regional Policy Subcommittee
 - Southwest Regional Policy Subcommittee
- Membership Committee
- Professional Designations Oversight Committee
 - Safety Subcommittee

Boards of directors

NGWA also has a set of boards focused on the needs of our membership sections. If you are interested in serving on your section's board of directors — let us know! Sectional boards include:

- Contractors Section Board of Directors
- Manufacturers Section Board of Directors
- Scientists and Engineers Section Board of Directors
- Suppliers Section Board of Directors.

Document writing groups

There are also work groups that help craft the Association's official documents. If you are interested in working with a document writing group — let us know! Document writing groups include:

- Best Suggested Practices
- Certification Exam Item Writing
- Standards, Guidelines
- White Papers, Information Briefs, Position Papers.

Other

- Giving an online presentation, webinar, short course
- *Groundwater*® paper reviewer
- *Groundwater Monitoring & Remediation*® paper reviewer
- *Water Well Journal*® Editorial Advisory Council

Committee Descriptions/Responsibilities

Awards Committee

Awards individuals who have made significant contributions to the groundwater industry during the past year. Meets annually to determine recipients of the NGWA Awards of Excellence and NGWA Outstanding Groundwater Project Awards.

Government Affairs Committee

Maintains surveillance of state and federal legislative and regulatory matters having implications to the groundwater industry, either on its own initiative or at the request of the NGWA Board of Directors.

Groundwater Recharge Work Group

The Recharge Task Group will develop policy and positions relating to groundwater sustainability and using groundwater recharge to maintain water supplies.

North Central Regional Policy Subcommittee

Engages on state-level policy issues in ND, SD, MN, WI, IN, IL, OH, MI.

Northeast Regional Policy Subcommittee

Engages on state-level policy issues in MD, PA, DE, NJ, NY, VT, NH, CT, MA, RI, ME.

Northwest Regional Policy Subcommittee

Engages on state-level policy issues in AK, WA, ID, MT, OR, WY.

Managed Aquifer Recharge (MAR) Work Group

The MAR Work Group works to promote safe and cost-effective MAR as an essential tool for managing groundwater resources and water supply resiliency.

PFAS Work Group

The PFAS Work Group handles policy and advocacy related activities around addressing PFAS contamination.

Southwest Regional Policy Subcommittee

Engages on state-level policy issues in CA, NV, UT, CO, AZ, NM, HI.

South Central Regional Policy Subcommittee

Engages on state-level policy issues in NE, IA, KS, OK, TX, AR, MO.

Southeast Regional Policy Subcommittee

Engages on state-level policy issues in LA, AL, MS, FL, GA, NC, SC, TN, KY, WV, VA.

Membership Committee

Explores new ideas to make NGWA membership a valued experience and works with NGWA staff on the development of retention and recruitment strategies.

Professional Designations Oversight Committee

Offers advice and guidance on how NGWA can support learning in the groundwater community and identifies trends, practices, and key questions that will help NGWA move beyond current industry approaches.

Safety Subcommittee

Develops educational materials on safety hazards and standards for the groundwater industry.

NGWA Volunteer Application

Yes, I want to impact the groundwater professions (Please print neatly.)

Privacy and the protection of personal information

NGWA is committed to respecting the privacy of its members, customers, and other stakeholders with whom we interact in the development and delivery of products and services that further our goal of making standards work for people and business. Please visit NGWA.org to learn more about our privacy policies.

If you are a member of a group administered by NGWA, such as a committee, board, or consumer network, or an information subscriber to a technical committee, your contact information is used to conduct the business of that group in the development of standards and related products. Your contact information is normally shared with other members of your group and possibly the parent committee, to facilitate communications. NGWA uses an open and transparent process for developing standards, and your involvement in this process may be publicly acknowledged. Please be assured NGWA does not sell or share your contact information with other organizations for commercial purposes.

Depending on your status as a member or participant of NGWA, your information will also be used in conducting the affairs of the Association, such as our member awards program, notification of the annual general meeting, election of directors, etc. If you are a member of a committee that is jointly administered by NGWA and another organization, or by NGWA on behalf of another organization, we may share your contact information with that other organization as necessary to conduct the business of the committee.

If you have any questions about your status with NGWA, concerns with how NGWA uses your personal information, or wish to update your information or remove it from our contact lists, please visit our website or contact us at membership@NGWA.org.

Copyright assignment

NGWA honors and respects the intellectual property rights of others, and expects our members and other stakeholders to likewise respect our intellectual property rights.

As a participant on an NGWA committee, subcommittee, task force, board, or similar working group, or as an external stakeholder commenting on a draft or published NGWA document, you may receive copies of information in the form of a draft or published document in one or more formats, including electronic or hard copy. Please remember that NGWA owns the copyright of the documents and drafts it produces.

Please sign in the space below to acknowledge and confirm that in respect of your past and future contributions to any and all NGWA standards publications, best suggested practices publications, or other works for NGWA:

- You are a contributing author to such publications
- You have and do assign all rights in these contributions (including copyright) to NGWA
- You confirm that while you will be acknowledged as a contributor, there is no need for NGWA to list the various contributors (including yourself) within any past, present, or future publications as author or coauthor
- You authorize NGWA to act as your agent to sign copyright assignments on your future contributions, so that you do not need to be contacted again by NGWA in this regard
- You indemnify NGWA in any cases that would potentially arise involving copyright infringement of a contribution.

We thank you for your assistance in ensuring adequate protection of your valuable work. If you have any questions or concerns, please contact us at NGWA@NGWA.org.
